Announcing *NEW* Products!

Three *NEW* Essences

These three new essences were made in the summer of 2010 in the pristine and wild Alaskan environment. Alpine Arnica was made on Murphy Dome near Fairbanks; Club Moss and Rutile were made in the Portage Valley. These essences are available January 16th and will be discounted by 25% for the entire month of February!

Alpine Arnica - Arnica alpina

Illuminates the relationship between old emotional and mental imbalances and the pain we are feeling in our bodies; helps us let go of our accumulation of past hurts, without having to go through every detail of what happened and why; promotes ease, deep calm and balance; brings the subtle bodies back into their correct function, alignment, and position with regard to themselves and each other.

Alpine Arnica

Club Moss - Lycopodium annotinum

Supports us in making a direct, present time connection to the Earth; helps us go to deeper levels of relaxation, enjoyment, and manifestation; solidifies a base of energy in the body for the further development of higher functions; quiets the body, emotions, and mind.

Rutile (not pictured)

Shows us how to co-create with the higher intelligences that inhabit the physical realm, so we can work with and modify our physical structures to better meet the needs and demands of our journey; reminds us that we are part of something bigger that transcends the physical and is very much intact and functioning.
